Packing Glasses & Stemware

Want to know the right way to pack your fragile wine glasses?

- ★ Stuff glasses and stemware with crumpled tissue or packing paper before wrapping.
- ★ Lay on the corner of packing paper and roll it one or two full rotations (depending on size); pull sides of packing paper up and over glass/stemware and continue rolling to the far corner.
- ★ Corrugated paper rolls or cellular boxes may be used for added protection.
- ★ Place glasses and stemware toward the top of your box.
- ★ Heavier items (dish-ware, pitchers, etc.) should be placed toward the bottom of the box.
- ★ Delicate glassware and stemware should be placed in an upright position, not on its side.
- ★ No matter what you're packing, you should use crumpled packing paper in between each layer to assure a snug fit wherever there's a gap.
- ★ All boxes with "fragile" items should be marked accordingly.
- ★ Specialized Packing Tips The list of individual household items is endless.
- ★ Most can be packed by following our packing pointers.
